

Chuangjin Tower Conceptual

Shenzhen
Office/administration buildings

Founded in July 2014, TruValue Asset Management Co., Ltd., is a young and dynamic financial institution. With the vigorous development of China's asset management industry, the firm has become a leading international asset management service provider. Therefore, when designing the headquarters building, the design concept is called "TURVALUE · OVER THE CLOUD", which means that Truvalue Asset Management Co., Ltd., as a young and energetic financial institution, will lead the Internet cloud era and become the most potential benchmark enterprise; On the other hand, we hope to create an erect architectural form, and create the own golden era of the firm with a vigorous development and rising growth trend. This kind vigorous growth situation also indicates that the development of enterprises is soaring and shining.

The project base is located in the portal area on the north side of Guiwan area in Qianhai. Although accessibility is not high, it has excellent urban landscape vision in the northeast corner. The building form consists of five volumes of different heights stacked on top of each other, decreasing in volume as the height increases. Meanwhile, Facade as structure, this concept helps to ...
