

Chamber of Commerce (IHK) Nurnberg

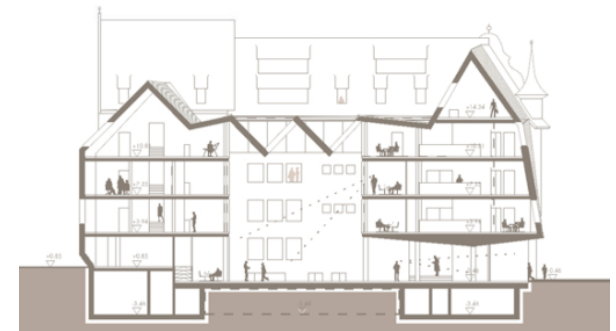

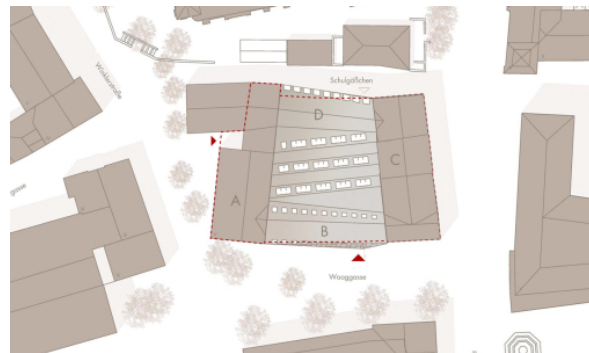

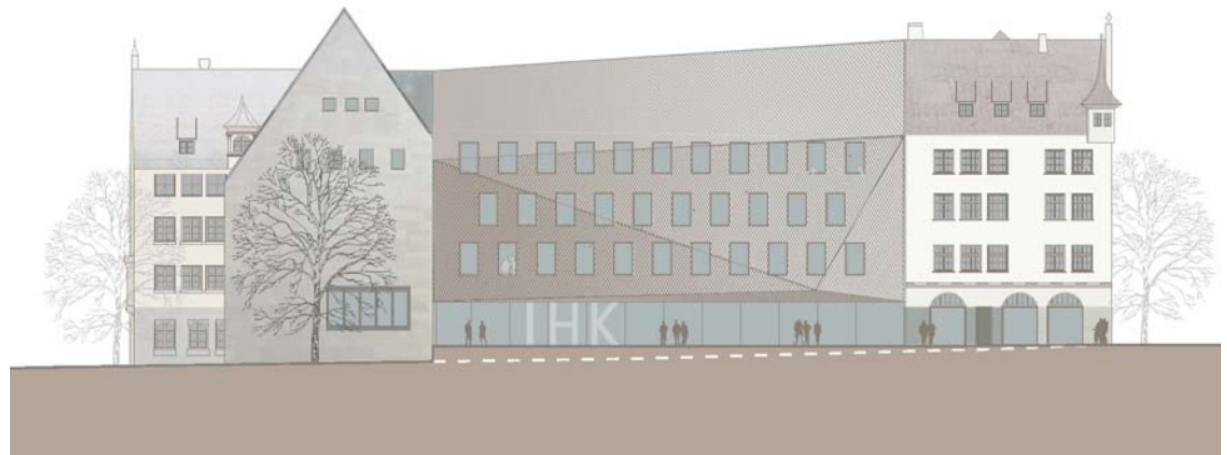

Nurnberg, 2012

In a limited competition to refurbish the Chamber of Commerce (IHK) in Nurnberg, middle Franconia, schneider+schumacher's proposal has won a jury commendation. "This is both an innovative and confident design (. . .). The way the floor plans have been resolved has received positive comments. We asked for various potential uses and flexibility and this has been well implemented. The proposed round circulation route is successfully resolved." (From the jury report)

In collaboration with Bollinger und Grohmann

Engineers: structural planning

Tichelmann and Barillas Engineers: energy concept, building physics and fire protection issues.
